

The Achieveit advantage Let's actually do this.™

The problem – managing integrated plans

There are lots of software tools designed to help a team organize and collaborate around a single plan or project. But when an organization is managing mission-critical initiatives, there's never just one single plan, and it takes massive coordination to manage everything from multiple plans. Strategic plans are typically integrated and span across departments and locations – each with their own individual plans being managed in different tools and reporting in different formats. Project management and strategic planning tools are simply not built for plans that are intertwined and overlapping.

Ultimately, most agency staff turn to Excel and PowerPoint for their default reporting mechanism. This time-devouring, disorganized process keeps work siloed and leaves everyone wondering, “How are we doing overall?” This siloed view provides no reporting uniformity, severely limits visibility, and ultimately makes it difficult to hold people

A better way

What agencies really need is one system that lets them **see through silos**, keep all **data uniform** and **up-to-date**, and makes it easy to **keep everyone on the same page** and **in-the-know**. It's what we call **Integrated Plan Management**.

Integrated Plan Management is being able to track and report on all of your interconnected plans in a single, automated platform. It combines all the best parts of reporting tools in one platform. It has...

- The high-level overview of a Business Intelligence (BI) tool
- The structure of Strategy Development software
- The automation of a CRM
- The ease of email
- The details of a Project Management tool

Current tools **fall short** managing **integrated plans**

Achievelt is the secure, cloud-based Integrated Plan Management solution that organizations like the Department of Veterans Affairs, US Air Force and the Joint Pathology Center (DHA) rely on to track and report on their mission-critical plans and initiatives.

Achievelt helps establish **Uniformity** in data collection and reporting, create the **Visibility** to know what needs attention, and promote **Accountability** for world class execution.

	Individual Plan Mgmt.		Integrated Plan Mgmt.			
	Manage an Individual Plan	Track Individual Plan Metrics	Uniformity	Visibility	Accountability	
			Manage & Track Many Plans	Report Across Plans	Automate Update Requests	Automate Reports & Dashboards

Achievelt is the only platform that provides a single source of truth where everyone can see all related planning activities across the organization come together, which enables them to:

- Eliminate silos across teams and work tools
- Gain a real-time view across your initiatives
- Empower leadership to make timely & informed decisions

Get Everything in View... Because you can't manage what you can't see. Achievelt lets you see what's happening with every initiative, at every level, from the enterprise to the individual, in real time.

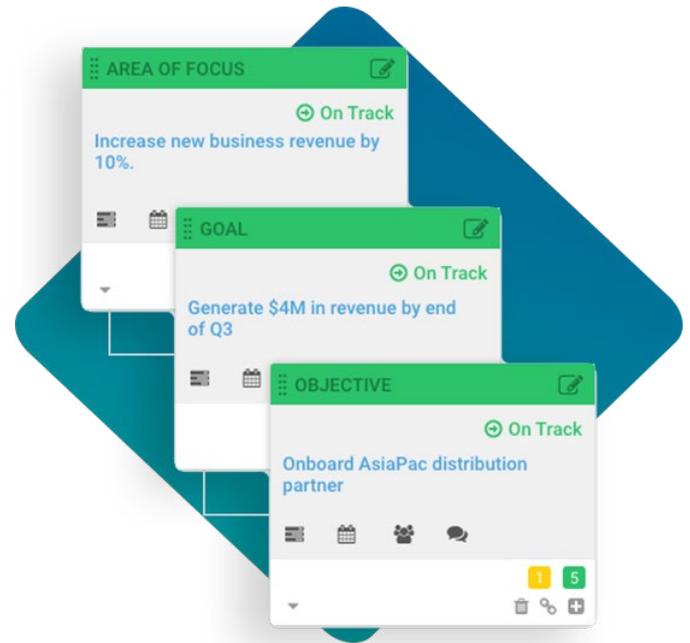

Get Everyone Engaged... Because organization-wide change doesn't happen in silos. Achievelt is an easy-to-use platform that connects your organization from the executive leadership to the project teams, keeping everyone accountable and on the same page.

Get Every Possible Advantage... Because there's enough standing in your way already. Not only do you have the premier platform in this space, but you can draw on the experience and best practices of our Execution Experts.

Achievelt acts as your **single source of truth**, so you can...

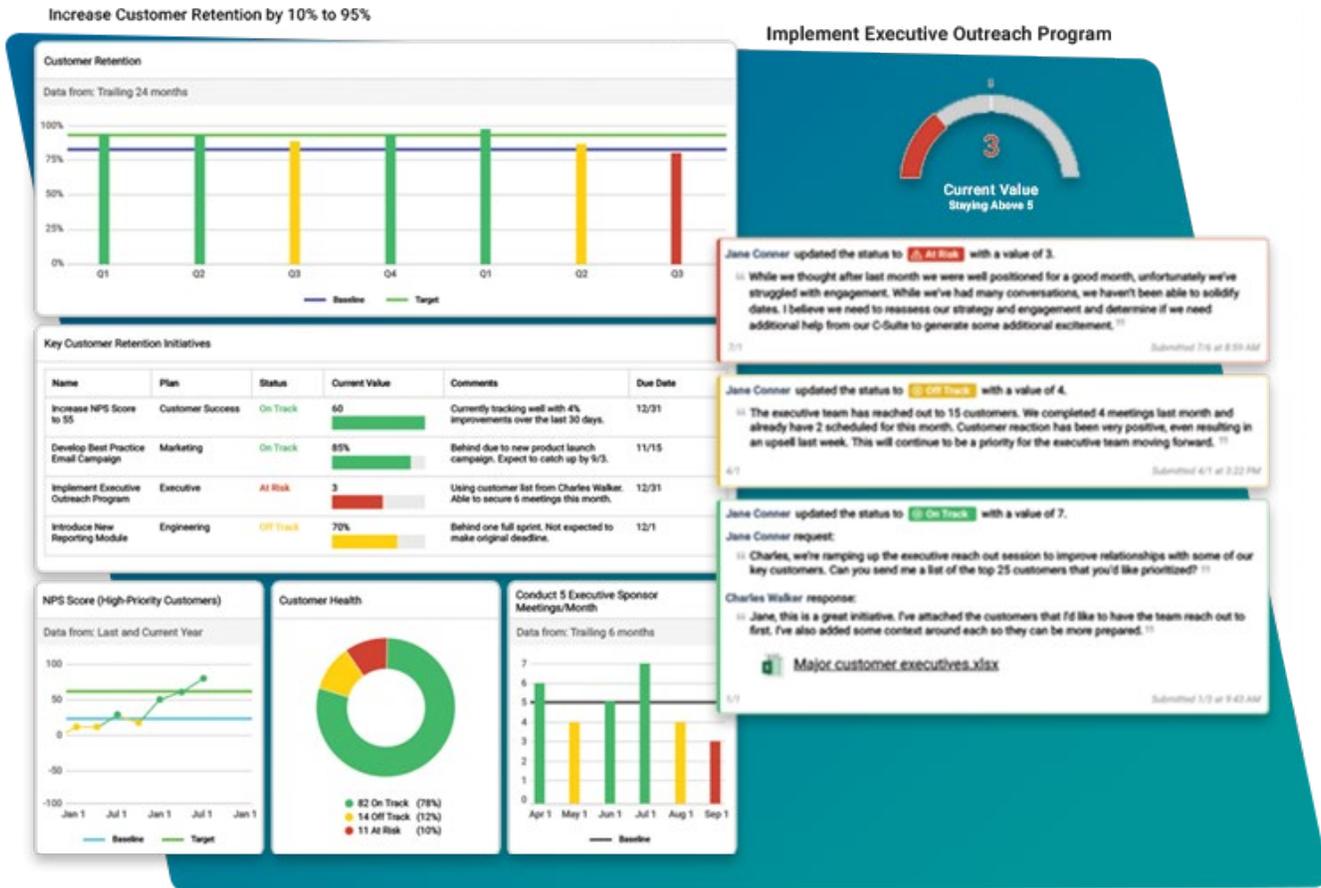

Ensure alignment, and share how daily activities roll up to higher initiatives.

Make key decisions faster, because you can spot trends, weak spots, and victories in an all-encompassing, multi-plan dashboard.

Connect activities to results, from any number of plans or filters, so you can focus your attention in time to change outcomes.

Easily drill into past and current contextual evidence, instead of manually searching for a spreadsheet from four months ago.

Gather updates with the click of a mouse, instead of hounding people in the hallway.

Implement Executive Outreach Program

Current Status	Start Date	Due Date	Metric	Target	Current Value
At Risk	1/1	12/31	Staying above 5	5	3

For Period: Quarterly | Updates Due: 1 Day After the Quarter Ends | NOTE: You will be asked for updates until the status is changed to Achieved, Not Achieved or Cancelled.

9/1 - 9/15 | 9/15 | Select Status | Enter your progress update comment

Get uniform updates and reports, while keeping your teams in their own tools and workflows.
